

**CUBAN AFFAIRS**--An IZVESTIYA commentator quoted by TASS says former CIA Director Dulles admitted in a television interview that the invasion of Cuba was organized with his knowledge. A Radio Moscow commentator says Dulles also admitted that any repetition of the venture would be doomed to failure, but that "despite such a lesson of the past, Dulles' successors insist on maintaining a venturesome policy against Cuba." Havana's PRENSA LATINA quotes the Cuban daily EL MUNDO as commenting that Dulles and Guatemalan President Ydigoras Fuentes have belatedly confessed their participation in the Cuban affair. The newspaper HOY, according to the Havana radio, says the new U.S. white book on Cuba contains "more lies and stupidities," and recalls that a similar white book was issued prior to the April invasion.
